Description Summary

The AmeriList Office Furniture Direct list is an extensive database designed for those seeking to connect with key decision-makers involved in purchasing furniture and office fixtures for their businesses. This targeted resource allows for segmentation by job titles and industries, ensuring that your marketing efforts reach the most relevant audience. With the capability to narrow down prospects by geography, AmeriList offers access to postal addresses, phone numbers, and email addresses where available, facilitating a multi-channel approach to connect with potential buyers effectively.

How Our Data Is Compiled

Our office furniture buyers' data is compiled using a wide range of proprietary sources, including online search & purchase, catalog shoppers, direct mail responders, survey data, product and warranty information, magazine subscriptions, and more. We take tremendous pride in maintaining the highest quality contact info and address deliverability, which is why we update the file monthly to ensure an unmatched level of accuracy. The database is processed against the USPS® National Change of Address (NCOA) system, Zip+4 coding, and CASS certification.

Consider The Facts

- The value of the U.S. office furniture market is 16.4 billion USD
- As of 2022, the average expenditure per consumer unit on furniture amounted to around \$746.14 U.S. dollars in the United States.
- United States businesses purchase 16.5 million chairs each year.
